CATALOGUE

—OF—

DUTCH BULBS

FOR FALL, 1894.

IN presenting our Catalogue of Hyacinths, Tulips, Lilies, &c., we would return our thanks to the numerous friends who have used our Bulbs, and for the many commendations we have received. The increase in our sales of Bulbs each year has been a pleasant surprise to us, and to meet the increasing demand, our importations will this year be more than double that of last year.

We do not aim to have the cheapest goods, without regard to quality, but we consider quality first, and then make prices as low as the cost of the goods will justify. To our carefulness in this respect we attribute very largely our rapidly increasing sales and the satisfactory results that have followed.

To Florists and Gardeners.

We will be pleased to make you special quotations on any Bulbs you may need, and invite you to call and inspect our stocks if convenient. If you cannot call, let us hear from you.

OUR LORD BALTIMORE COLLECTION OF BULBS.

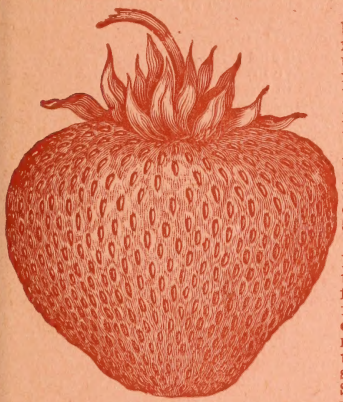
Collection No. 3, Choice Bulbs mailed free for $5.00.	Collection No. 2, Choice Bulbs mailed free for $2.50.	Collection No. 1, Mailed free for $1.00.
36 Hyacinths, separate colors.	6 Hyacinths, separate colors.	6 Hyacinths.
36 Named Tulips.	12 Mixed Hyacinths.	15 Tulips.
50 Mixed Tulips.	18 Named Tulips.	12 Crocus.
12 Splendid Narcissus.	24 Mixed Tulips.	6 Choice Narcissus.
100 Crocus.	6 Narcissus.	6 Snowdrops.
2 Crown Imperial.	50 Crocus.	6 Scilla.
12 Chionodoxa.	1 Crown Imperial.	3 Iris.
12 Snowdrops.	5 Chionodoxa.	6 Freesia.
6 Iris.	5 Snowdrops.	All for $1.00.
12 Scilla.	3 Iris.	
12 Freesia.	5 Scilla.	
3 Choice Lilies.	5 Freesia.	
2 Easter Lilies.	2 Choice Lilies.	
5 Jonquils.—300 Bulbs for $5.		

Pot-Grown Strawberries.

NOTE.—If plants are wanted by mail, add 10 cts. per doz. and 75 cts. per 100 for postage.

SIX GRAND NEW BERRIES.

We consider these six varieties the cream of the tested new sorts offered recently. There is no doubt that they all have solid merit.



GREENVILLE, ½ SIZE.

TIMBRELL. (P.) The most extensively advertised berry ever introduced, and no berry was ever offered under more favorable circumstances. It had become immensely popular even before its introduction, through the most satisfactory results at the various points to which the originator sent it for trial. Fruit is large, bright red, rich and of good quality. Ripens late and is very productive. Price, strong pot-grown plants, 75 cts. per doz., $5 per 100.

GREENVILLE. (P.) "*The Fill-Basket of the 19th Century.*" The most widely tested new variety yet offered. A great improvement over Bubach, being a better grower, and with fruit of finer appearance. The berries are large, bright crimson, and of good quality. Price, strong pot-grown plants, 50 cts. per doz., $3.00 per 100.

NEW LADY-FINGER (BELLE.) Here is what we have been looking for—a berry having many of the characteristics of the old-fashioned and favorite Lady-Finger, constituting fine quality, firmness, size and productiveness and *length* of fruit; in fact, resembling that variety more closely than any other. "It is the longest of all berries." At this writing, it is more than a month since the first Strawberries ripened, but to-day's picking of the Lady-Finger are the largest of the season, showing its tendency to hold its size to the end of picking. Season medium to latest. Price, strong pot-grown plants, $1 per doz., $6.00 per 100.

DAYTON. The Dayton is filling a prominent place. The fruit is large, regular in shape, bright and attractive in color, firm and excellent in quality. Ripens *very early* and continues in bearing a long time. Plant is a strong grower, perfectly healthy and free from rust; stands the dry weather and burning sun, and remains firm during the wettest season, as we found this year. Price, strong pot-grown plants, 60 cts. per doz., $3.50 per 100.

PRINCESS. (P.) "*Eighteen berries fill a quart!*" This is a "princess" indeed, and well deserves the name. A small bed will produce a surprising amount of fine attractive fruit, and the *best of fruit!* Plant a strong, robust grower, hardy and healthy. Roots deep and stands drought well. Ripens midseason. Price, strong pot-grown plants, 60 cts. per doz., $3.50 per 100.

LEADER. This new variety somewhat resembles Sharpless in growth of plant and shape of fruit, but is much earlier and is far more productive; really an improvement over Sharpless in every way. Ripens early. Price, strong pot-grown plants, 60 cts. per doz., $3.50 per 100.

LAYER PLANTS. Supplied in any quantities at low prices.

BLACKBERRIES.

WILSON, Jr. The largest known variety, of fine appearance and ripens very early. Very productive and good quality. By its low, trailing habit of growth it is easily protected in winter and well adapted on that account to cold climates.

KITTATINY. A very popular sort for general planting, and still growing in popular favor, especially for family use. Very strong grower; berries large and fine flavor; exceedingly productive. Season extends from medium to very late.

LUCRETIA (Dewberry.) As early as Early Harvest and as large as Wilson. Shiny jet black, melting and delicious quality, devoid of core. Plant is entirely hardy, healthy, strong grower and very productive.

PRICE BY MAIL: 10c. each, 3 for 25c.; 12 for 75c.; price by express, $2.50 per 100. If wanted by mail, at rates per 100, add 40c. per 100 to cover postage.

RASPBERRIES.

POSTAGE ON RASPBERRIES BY THE 100 SAME AS ON BLACKBERRIES.

BLACK PROGRESS (Pioneer.) The best very early jet black raspberry. Good quality, ripening with Souhegan, stronger grower and more prolific; very valuable market variety; extremely hardy. Price, mail, 10c. each; 3 for 25c.; 12 for 75c.; express, $2.50 per 100.

GOLDEN QUEEN. The best yellow raspberry. Very large, exquisite beauty, very good quality, hardy and very productive; very strong grower and succeeds well in the South and Pacific Coast, as well as in colder climates. Price, mail, 10c. each; 3 for 25c.; 12 for 75c.; express, $2.50 per 100.

CUTHBERT, GREGG, OHIO AND SOUHEGAN, 10c. each; 3 for 25c.; 75c. per doz., by mail; $2.00 per 100.

CURRANTS.

CHERRY. The most popular market sort. Bunch and berry very large, bright red; bush healthy, vigorous and productive. Price, mail or express, 10c. each; 3 for 25c.; 12 for $1.00.

FAY'S PROLIFIC. The best red currant. Strong grower, wonderfully productive and comes to bearing young; fruit large, bright red, and good quality. Price, mail or express, 20c. each; 3 for 50c.; 12 for $1.50.

WHITE GRAPE. The largest and best white currant. Bunch, large; berries large, handsome, translucent and excellent quality. Strong grower and very productive. Price, mail or express, 10c. each; 3 for 25c.; 12 for $1.00.

Pot-Grown Strawberry Plants.

(Ready from July to November 15.)

Our Strawberry Plants grown in pots are as much superior to ordinary layer plants as the improved cultivated sorts of Strawberries are superior to the ordinary wild berries. They can be shipped to any part of the United States or Canada and planted without any check, requiring no special care in transplanting, and will produce a full crop of the finest fruit next spring.

NOTE.—If plants are wanted by mail, add 10 cts. per doz. and 75 cts. per 100 to cover postage.

BIG 4—ALL PERFECT BLOSSOMS.

One of the best collections of Strawberries ever offered. Selected and advertised this year for the first time, and justly deserve the prominence given them; we have no better varieties of their class. They are all well thought of, and no one will be disappointed in them.

ENHANCE. *The king of large, late, dark Strawberries*, and has no superior for canning. Ripens first fruit in mid-season, and continues picking until quite late. Fruit is large, firm, fine quality and of the most beautiful dark red color, which runs through to the center of the berry. Plant a strong grower and very productive; free from rust. Price, strong pot-grown plants, 50 cts. per doz., $3.00 per 100.

WOOLVERTON. One of the very best berries on our list. The fruit is large, of beautiful shape, bright, attractive color and fine quality. *Everybody likes the Woolverton!* Plant is a strong, healthy grower, prolific bearer, and the blossoms produce an abundance of pollen, making it especially valuable for planting with other varieties. Price, strong pot-grown plants, 50 cts. per doz., $3 per 100.

GOVERNOR HOARD. If you want a berry of particularly fine appearance to serve with the hulls on for eating "out of hand," try the Governor Hoard. Berries large, roundish, conical, bright, glossy red, firm, and of fine flavor. Ripens quite early. Price, strong pot-grown plants, 50 cts. per doz., $3 per 100.

SAUNDERS. Of Canadian origin; a hardy, luxuriant grower and heavy bearer. Fruit conical, slightly flattened, with a depression on both sides, which, together with the rich, glossy, deep red color, makes it very attractive. Flesh of berry red to the center. "The Saunders does well everywhere." Price, strong pot-grown plants, 50 cts. per doz., $3 per 100

SPECIAL OFFER: We will furnish 100 each of the Big 4 "Jr." for $11.00, or 1000, our selection, for $25.00. 6 each for $1 00; 12 each for $1 75; 25 each for $3 00.

SELECT STANDARD SORTS WORTHY OF SPECIAL MENTION.

NOTE.—In this list the varieties are generally already well known, and we give only brief descriptions, with time of ripening, etc. They are the cream of the standard older varieties, selected from a long list after discarding many worthless sorts.

POT-GROWN PLANTS, 50 CTS. PER DOZ., $3.00 PER 100, $25.00 PER 1000. LAYER PLANTS AT LOW PRICES.

EUREKA. (P.) Very late. Fruit large size, and one of the very best late varieties we have. A very strong grower, and exceedingly productive. Sometimes called "Eureka, the Beautiful," a term which is fitly applied.

CANDY. Ripens late; fruit large and fine.

BELMONT. Largely grown in New England States, and grown there in preference to Sharpless, which it resembles, but which it surpasses in some of the qualities which make the Strawberry popular.

PARKER EARLE. Satisfactory when grown on rich soil. Fruit medium to large. Recommended for garden culture, but rusts too much for ordinary planting.

MICHEL'S EARLY. *Earliest of the earlies.* Fruit medium size and fine quality. Plant a strong, vigorous grower, and free from rust. Largely planted on account of extreme earliness.

HAVERLAND. (P.) Ripens a few days after Michel's Early, but more productive and larger. Fruit long, resembling Lady-Finger; beautiful glossy red and fine quality. One of the leaders among berries, and hard to beat. We especially recommend this variety.

SCHUSTER'S GEM. (P.) Ripens with Haverland. Fruit a beautiful crimson, and second only in quality to the Banquet. Remains good size to the end of the season. A great favorite.

BEDER WOOD. Ripens just after Schuster's Gem, and is a very heavy bearer. Fruit not as large as some, but it knows how to bear. Blossoms perfect.

BUBACH. (P.) Ripens second early. Fruit extra large and fine; very productive and profitable.

WARFIELD. (P.) Early and productive. Rich, dark, glossy red. Medium size, but very attractive.

LOVETT'S EARLY. Ripens second early, and continues through season. Exceedingly productive, and has become very popular. Fruit averages good size; is bright red and of fine shape.

SHARPLESS. A standard old sort, well known and largely planted, both for table use and for market.

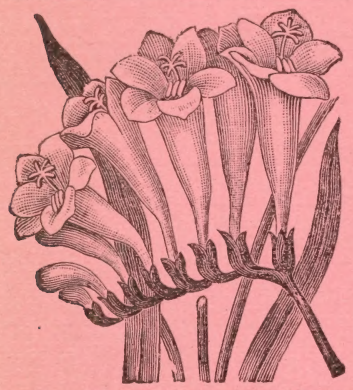
ORDER SHEET

FOR

GRIFFITH, TURNER & CO.'S BULBS, SEEDS, ETC.



HOW TO SEND MONEY.

Cash should always accompany the order, and can be sent to us by **P. O. Order, Express Money Order, Bank Draft, Express, or by Registered Letter.** Every postmaster is required to register any letter on payment of 8 cents extra postage.

For small amounts send Postage Stamps, which will always be accepted.

VERY IMPORTANT.—No difference how often you have written us, always give your full Address, and write your Name, Post Office, County and State very plain. By so doing you will save us much trouble, and avoid the possibility of delay and mistakes in filling your orders. We frequently get orders without address or signature.

CATALOGUE OF BULBS.

Chinese Sacred Lily.

Joss Flower or Flower of the Gods.

This is grown by Chinamen for decorating their Temples or Joss Houses on their New Year's day, which occurs in February. They can readily be brought into bloom by Christmas. It is very easily handled, and may be grown in moist soil or in pebbles and water. It is becoming very popular.

10 cents each, by mail 15 cents.
85 cents per dozen, by mail $1.20.
Also Baskets at wholesale prices.

HOW TO CULTIVATE BULBS.

ANY good garden soil, well pulverized, is suitable, but good sandy loam is preferable. A dressing of fine bone meal will be found very beneficial. Plant the large bulbs about three inches below the surface, the smaller bulbs not so deep. The usual time for planting is in October or November, but any time during the Winter will answer, if the surface only is frozen. After the bulbs are planted, if hard deep frosts set in, cover with a light litter, that may be raked off in the Spring. The bulbs will then shoot up and flower without further trouble. If early Spring should prove dry, water well. The arrangement of the bulbs in the beds is much a matter of taste and situation. They may be planted in rows, in masses, in circles or half-circles. Each color by itself, or divided, or mixed. No matter how arranged they will always prove interesting and beautiful.

After they flower and die down the bulbs may be allowed to remain in the ground to flower the next season, or if beds are required for other plants, may be taken up, soaked in water for about 12 hours, then dried and laid away for replanting. Bulbs are so reasonable in price that it does not pay to keep the old ones, especially as the flowers of the new ones are far superior to the old.

CULTURE OF BULBS IN POTS OR BOXES.

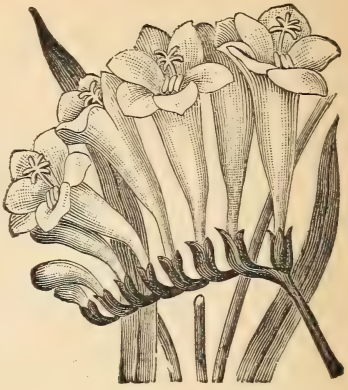
Pots for single bulbs should be twice the diameter of the bulb. The same proportion of room should be observed when planting in boxes or in pots holding more than one bulb. The boxes or pots should have proper drainage, so that no water will lie in the bottom. The soil used should be good sandy loam, mixed with bone meal. After planting, place the boxes or pots in a dark cool place for three weeks, until the roots are well started, then gradually bring them to the full light.

TO GROW HYACINTHS IN GLASSES.

Fill the glass with water. Place the bulb in the glass with the bottom touching the water. Place the glass or glasses in a dark cool place for about three weeks, or until the roots are three or four inches in length, and the flower stem one inch high. After they are brought out and acclimated, the more sunlight they get the better.

As the water evaporates it must be renewed, and changed as often as it becomes discolored or impure. When the flower bud begins to swell, the water may be brought higher up on the bulb. The temperature should be as even as possible. A few drops of hartshorn in the water will help the bloom.

Freesias.



These are among the most beautiful of all Cape Bulbs, possessing a peculiar grace of form, and their fragrance is most delightful, one pot of five or six bulbs being sufficient to perfume a whole house. As cut flowers they are extremely valuable; the unexpanded blooms opening in water fill the air with the most delicate perfume, and their endurance is really remarkable. They force very easily, and can be had in flower at Christmas, and continue in succession until June. Extra size, 20 cts. per dozen; $1.00 per 100; by mail, $1.25 per 100.

White Roman Hyacinths.

A charming class of Hyacinths, producing graceful white flowers, of great beauty and fragrance. This very valuable variety, if planted early in September and gently forced, will bloom in November, or their flowering may be retarded till Christmas by keeping them in a cool place.

We advise the purchase of the largest sized Bulbs as the cheapest in the end.

The best effect is produced by planting four or five Bulbs in one medium sized pot.

	Per Doz.	Per Doz.	Per 100
White Roman,	$ 30	By mail $ 40	$2 00
" " extra size,	40	" 50	2 50

SPECIAL PRICES FOR LARGE QUANTITIES.

Mixed Hyacinths.

For Forcing or Outdoor Culture.

These are carefully selected, well ripened Bulbs, comprising different shades of the various colors that will produce fine blooms if properly treated; not to be confounded with the cheap mixtures sometimes offered for outdoor planting.

Selected First Size Fine Named Hyacinths.

(Add 20 cents per dozen for postage when to be sent by mail.)

These are selected first size bulbs and not to be compared with the *cheap named* Hyacinths that are offered by the trade. They are two distinct grades, and in this selection the bulbs are large, clean and healthy.

The single varieties are best adapted for glasses and are more largely used for indoor culture than the double.

SINGLE WHITE.

	Each.	Per Doz.
Alba Superbissima, a fine pure white, excellent	$ 10	$1 00
Baroness Von Thuyll, snow white, compact	10	1 00
Blanchard, large, pure white	10	1 00

	Each.	Per Doz.
Czar Nicholas, bright rose	$ 10	$1 00
Grootvorst, creamy blush, fine truss	10	1 00

GLADIOLUS COLVILLI ALBA.

"THE BRIDE."

Now being extensively used for forcing for cut flowers, as they are very beautiful and easily forced. The flowers of "The Bride" which are pure white are produced in abundance and are much sought after, and command good prices. For early flowering should be planted in 5 or 6 inch pots, 5 to 7 Bulbs in each, and placed in cold frames or plunged out of doors until rooted, as with other bulbs. For late flowering, can be planted in cold frames, needing only the protection of sash, as they are nearly hardy. Grown in this way they will bloom in June, giving a most beautiful crop of flowers, very profitable.

20 cts. per doz.; by mail, 25 cts.; $1.25 per 100.

TULIPS.

Add for postage on Tulips at the rate of 5 cts. per dozen when ordered to be sent by mail.

We have given special attention to the selection of our Tulips and our collection is unusually fine, embracing the choice leading varieties. For early forcing the Duc van Thol and early single sorts are best. They should be started in September and treated the same as Hyacinths. Early in November they may be removed into heat. The greater part ought to be potted from the middle of September to the end of October. For outdoor planting they should be set 3 to 4 inches deep, and 4 to 6 inches apart, according to the size of the bulb. A few bulbs planted here and there produce but little effect, but when planted in masses, or in small groups, they become at once brilliant and grand, and surpass in variety of coloring and picturesque effect almost any other flower.

The letters A, B and C indicate earliness of blooming. Those marked A are earliest, B next, and then C. L stands for late.

EARLY SINGLE DUC VAN THOL TULIPS.

	Per doz.	Per 100.
Rose	$ 30	$2 25
Scarlet	20	1 00
Crimson	20	1 00
Gold Laced	20	1 00
Red and Yellow	20	1 00

Add 5 cents per doz. if Tulips are to be sent by mail.

Crocus.

When ordering by mail add 5 cts. per doz. for postage.

Among the earliest to blossom in Spring is this beautiful little flower, lifting its head almost before the snow has disappeared. Blooming at a time when the ground is destitute of foliage or flower, it is a welcome visitor. They present the best appearance when grown in masses in a bed or in double or triple rows as a border for other Bulbs, for which large quantities should be used.

LILY OF THE VALLEY.

Lily of the Valley.

One of the most charming of Spring flowering plants, bearing slender stems set with tiny bells which diffuse a delicious odor. They are largely used for forcing in Winter and can be flowered in the house. To secure good results the Pips should be kept in a cold place until wanted for flowering. The Pips we offer are the best German, and will be ready for delivery about last of November.

15 cts. per doz; by mail 20 cts.
$1.00 per 100; by mail $1.25.

Iris.

English.—Large flowers, rich blue shades predominating, mixed. 25 cts. per doz.

Spanish.—Flowers smaller than the English but very handsome, mixed varieties. 15 cts. per dozen.

By mail, 10 cts. per dozen extra.

Narcissus or Daffodils.

There are no hardy plants which have more points of merit than the Narcissus. Perfectly hardy in all latitudes, if planted in well-drained ground they multiply and increase in attraction each year. They are as easily forced as the Hyacinth, and a constant succession of flowers may be had from January to the middle of May. The flowers are among the most attractive of blooms, very lasting and of endless variety of form and coloring.

SCILLA SIBERICA.

AMŒNA.

This is one of the prettiest of early Spring blooming bulbs of dwarf habit, with sprays of exquisite rich blue flowers. Grown in masses, in conjunction with crocus, chionodoxa and snowdrops, the effect is charming. 15 cts. per doz.; 75 cts. per 100.

CHIONODOXA LUCHESII.

GLORY OF THE SNOW.

Handsome blue flowers, blooms early in Spring. 20 cts. per doz.; $1.25 per 100.

LILIES.

BERMUDA EASTER LILY.

LILIUM HARRISI.

The *True Bermuda Easter Lily* is one of the grandest bulbs introduced in many years. They are easy of culture. early, flower quickly, and can be had in bloom for Christmas from bulbs planted as late as September.

They are, however, mostly grown for Easter Flowers, and of course will produce more flowers when given a longer time. They have become very popular, and deservedly so, as it comes quickly into bloom and produces pure white, gracefully formed and delightfully fragrant flowers.

20c. per doz., by mail 25c., per 100 $1.00, mail $1.20.

Lilies—continued.

WHITE CALLA.

LILIUM CANDIDUM.

The Bridal Lily of Bermuda.

The old-fashioned pure white Garden Lily. It is as hardy as an oak, and always gives satisfaction. As it starts into growth very early in the fall, it should be ordered early, and for this reason it is best planted in August and September when possible. It is also considerably used in some localities for forcing. It grows about four feet high, bearing large clusters of snowy white, medium-sized flowers. Selected bulbs, extra fine, 10 cts. each, $1.00 per dozen. Mailed free.

WHITE CALLA.

The White Calla or Lily of the Nile is a well known plant of easy culture, and in winter is one of our best window plants. To aid profuse blooming, keep them dormant from the middle of June to last of August, repot in good rich soil, using a 4 to 6 inch pot, give water, light and heat in abundance, and the result will be most satisfactory.

Large bulbs, 15 cts. each. $1.25 per doz.
Extra large bulbs, 20 cts. each. $1.75 per doz.
Black Calla, each 25 cts. Spotted Calla, 15 cts. each.

By mail, 5 cts. per bulb extra for postage.

SPIREA JAPONICA.

ASTILBE.

A splendid plant for forcing in the greenhouse or the conservatory, where it produces beautiful sprays of silvery-white flowers during February and March. It is perfectly hardy, and when planted outside it blooms in June.

Sweet Peas.

FOR SOWING IN FALL.

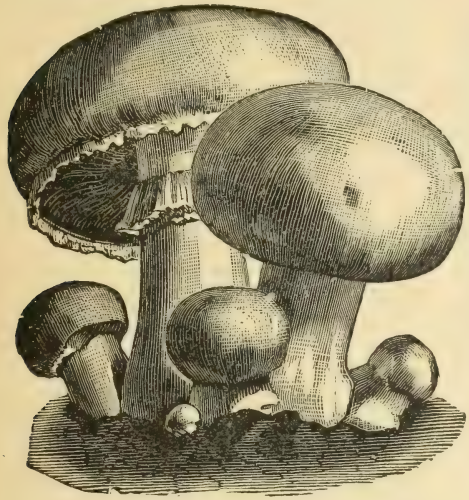
Sweet Peas can be successfully grown by sowing the seed in the Autumn in rich sandy soil about 6 inches deep. Cover with straw or manure over winter; remove covering about March 20th or April 1st. Stake the plants, and if weather is seasonable they will flower in May.

The wonderful advance made in the size, substance and variety of colors in Sweet Peas in the past few years has placed it in the first rank among flowering plants. But few plants are easier grown, and grown in masses of separate colors or in mixture their beauty and fragrance cannot be surpassed.

Splendid mixture, 5c. pkt., 25c. ¼ lb., 75c. per lb.

MUSHROOM SPAWN.

Mushrooms can be readily grown in cellars, stables, sheds or pits. Many are successfully grown on a shelf in an ordinary cellar and yield sufficient crops to compensate the grower for his effort.



The space under greenhouse benches or stagings will suit them exactly, using materials in same manner as described.

CULTIVATION.

The cultivation of the Mushroom is a very simple matter and requires only ordinary intelligence and care. The materials needed are fresh horse manure, good soil and live spawn. The manure should not be too short, as it does not combine the necessary qualities. Long strawy litter, plentifully mixed with short manure, makes by far the best beds, as it does not heat too violently, decomposes slowly and retains its heat for a long period. Put in a heap and turn every three or four days to permit the escape of noxious gases and prevent burning. When ready for use it should be as hot as can be borne comfortably by the hand, and should also be moist. Make the beds 3 feet wide at the base, 2½ feet high, and of any desired length. The manure, when in proper condition should be quickly handled to prevent the loss of heat and be beaten down to make the heap firm and compact, and cover with long litter; when the heat has decreased to 90°, the bed is ready to receive the spawn, which is done by raising the manure with the hand and inserting pieces of spawn 2 inches square, 9 inches apart each way. At the expiration of a few days the bed may be covered with soil to the depth of about two inches. If the soil is poor add a liberal quantity of bone meal.

Best English Spawn, 12 cents per lb., 10 lbs. for $1.00. By mail 30 cents per lb.

Poultry Supplies.

Eggs at all Seasons

BY USING

RUST'S EGG PRODUCER.

TRADE. (THE HEN PERSUADER.) MARK.

RUST'S EGG PRODUCER.

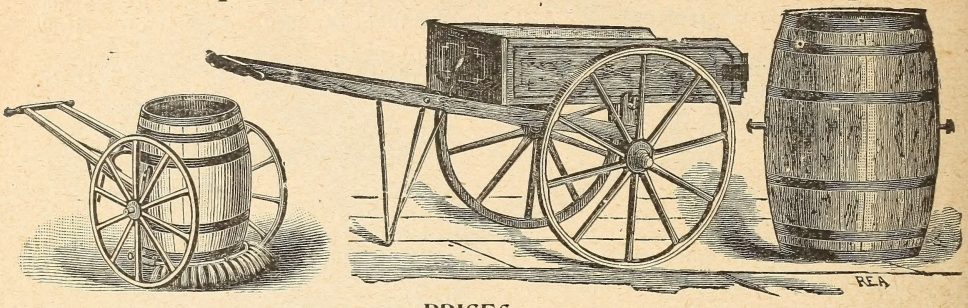
WATERING POTS.

Galvanized, all sizes.
75 cents to $2.50

Combination of Barrel, Truck, Hand Cart, Sprinkler and Barrel Force Pump.



PRICES.

Water Truck	$6 75	Force Pump Attachment	$6 00
Water Truck and Barrel	9 00	Sprinkling Attachment	3 00
Water Truck and Box	9 00	Leaf Racks	4 00
Water Truck, Barrel and Box	10 00		

For 2½-inch tires on trucks, add to the above prices $1.50. For 4-inch tires on trucks, add to the above prices $2.00.

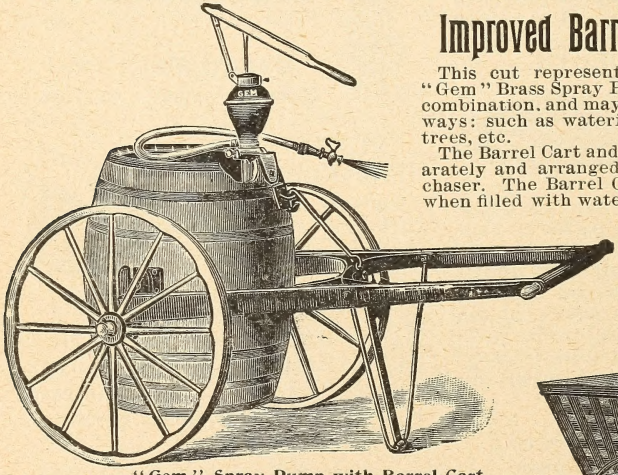
When we consider the almost innumerable uses to which the Combined Truck and Hand Cart can be applied, its handiness, and the immense amount of time and hard labor saved by its use, it is not a matter of surprise that it is steadily growing into favor. It is one of those articles that causes the user to wonder how he ever did without it, as it really becomes indispensable when once used.

The barrel is raised from the ground, carried to the place desired and instantly detached, all without handling. The weight being balanced over the axle, no lifting or down pressure is needed in transportation.

Other barrels for various purposes can be used as needed, extra trunnions being furnished, if desired, which can be readily attached to any oil or spirit barrel, thus increasing indefinitely the value of the truck.

We have wheels of 1½, 2½ and 4 inch tread, but always send truck with wheels 1½-inch tread, unless otherwise specified.

We also supply a box, with trunnions and spring catch, making a very superior dumping Hand Cart. Very stiff, compact, handsome, and low in price. Furnished with or without barrel or box, as ordered. A first-class force pump, sprinkling attachment and leaf rack furnished as attachments. Just the things for washing windows and carriages, and for spraying trees; also for sprinkling lawns; the leaf rack is a very useful article for moving leaves, etc. from the lawn.

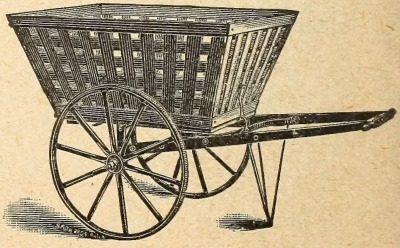


"Gem" Spray Pump with Barrel Cart.

Improved Barrel Watering Cart.

This cut represents our Barrel Cart, with "Gem" Brass Spray Pump. This is a convenient combination, and may be found useful in various ways: such as watering gardens, spraying fruit trees, etc.

The Barrel Cart and Pump may be ordered separately and arranged together to suit the purchaser. The Barrel Cart may be wheeled about when filled with water to supply spinkling cans for watering flowers and vegetable gardens. When the running gear or truck is ordered without barrel, the trunnions may easily be fastened to any good water-tight barrel by any person with ordinary mechanical ability.



SIZES AND PRICES.

Wooden Hay Rakes, ... 25 cents.

GRIFFITH, TURNER & CO.'S EVERGREEN LAWN GRASS.

There is nothing prettier around a home than a well kept lawn; it brightens up the surroundings and adds loveliness to the landscape. In order to make or preserve a pretty lawn, Grass Seed should be liberally used, and for this purpose our Evergreen Lawn Grass is the most desirable. This is a first-class mixture prepared by ourselves and containing nothing but choice seeds—just the thing for tennis, croquet and ball grounds—remaining green and fresh during the hot summer months. Widely known and extensively used on the finest private and public grounds around Baltimore and elsewhere with the most satisfactory results. Pt., 15 cts.; qt., 25 cts.; peck, $1.25; bushel, $4.50.

PREPARATION AND CARE OF LAWNS.

The ground should be thoroughly drained and well enriched before sowing. Work the soil until well pulverized, and have the surface as level as possible, so that the grass may present an even appearance. After sowing, cover seed lightly and follow with roller. The best results are obtained by using plenty of seed—four bushels to the acre being about the right quantity. One quart is sufficient for 300 square feet. Let the grass obtain a good start before cutting, and then it should be trimmed with a lawn mower about every ten days. *Old Lawns* may be improved and renewed by the application of fertilizers, and seeding about half the quantity of seed required for new Lawns.

THE ARC LAWN SPRINKLER.

We claim this is the most perfect Sprinkler in existence. It is simple, will not wear out nor clog up, is well made and handsomely nickeled, is boxed singly with full directions how to use. Its merits are, without question, pre-eminently superior to any other.

Price, ... $1.75
